Benjamin A. Neely, Ph.D.

Curriculum Vitae – June 2018

Personal Information:

Research Chemist
Marine Biochemical Sciences Group
Chemical Sciences Division
Material Measurement Laboratory
NIST Charleston
National Institute of Standards and Technology
Charleston, South Carolina
United States

Email: Ben.A.Neely@gmail.com

Born: East Ridge, TN

Research Interests:

- Development of new materials for *omic applications.
- Generating standardized proteomic data across non-model species as part of the CoMPARe Program (Comparative Mammalian Proteome Aggregator Resource)
- Emerging proteomic applications, specifically working with stakeholders to optimize and standardize methods for data-independent acquisition and metaproteomic analysis
- Design and improve quality controls (samples or spike-ins) and/or quality metrics useful for large-scale proteomic workflows.
- Develop new workflows to integrate genomic/transcriptomic and proteomic data in a meaningful way to create synergy between the approaches, improving their analytical strength and statistical power. These algorithms use open-source platforms with eventual integration of other –omic data such as lipidomic and metabolomic.
- Developing and optimizing methods utilizing selected reaction monitoring to quantify multiple prototypic peptides in complex matrices such as serum, cerebral spinal fluid, and/or urine.

Education:

The University of Georgia
B.S.E.S., Environmental Soil Science, December 2003

Medical University of South Carolina
Ph.D., Biomedical Sciences, September 2009

Experience:

5/16 – present Research Chemist, Chemical Sciences Division, National Institute of Standards and Technology, NIST Charleston, Charleston, SC

11/12 – 5/16 Staff Scientist, MUSC Proteomics Center, Department of Pharmacology, Medical University of South Carolina, Charleston, SC

1/10 – 11/12	Post-Doctoral Scholar, Nephrology Proteomics Laboratory, Division of Nephrology, Department of Medicine, Medical University of South Carolina, Charleston, SC
8/04 – 9/09	Graduate Research Assistant, Hollings Marine Laboratory Marine Biomedical and Environmental Science Center, Medical University of South Carolina, Charleston, SC
5/03 – 9/03	Research Assistant, The University of Florida, Gainesville, FL
9/02 – 8/04	Teacher Assistant and Laboratory Technician, Crop and Soil Science Department, The University of Georgia, Athens, GA
6/02 – 9/02	Horticulture Exchange Student, Boomkwekerij Togtema; Buitenpost, Netherlands
10/01–11/01	Volunteer Intern, USDA, NRCS, Louisiana State Soil Survey, Ringgold, LA
5/01 – 9/01	Laboratory Technician, Department of Biochemistry, Vanderbilt University, Nashville, TN
5/99 – 9/99	Roving Interpreter, Tennessee Wildlife Center, Chattanooga, TN

Neely BA, Ellisor DL, Davis WL. 2018. Proteomics as a metrological tool to evaluate genome annotation accuracy following de novo genome assembly: a case study using the Atlantic bottlenose dolphin (Tursiops truncatus). bioRxiv doi:10.1101/254250 (2018).

Honors and Distinctions:

- 1st place student presentation at the 43rd Annual IAAAM Conference, 2012
- 2nd place poster at the MUSC Student Research Day, 2012
- 1st place student presentation at the 42nd Annual IAAAM Conference, 2011
- 1st place poster at Department of Medicine's 5th Annual Research Day, 2010
- 2nd place poster at 6th Annual SREL Student Research Symposium, 2006
- Presidential Scholars Program, Medical University of S.C., 2005
- Graduated Magna Cum Laude with honors, The University of Georgia, 2003
- Presidential Scholar, The University of Georgia, 2003
- Presidential Scholar, The University of Georgia, 2002
- Most Commendable Member Award, Georgia Soil Water Conservation Society, 2002
- Treasurer for the UGA chapter of the Soil and Water Conservation Society, 2002
- Dean's List, McDaniel College, 2000
- Honor's Program, McDaniel College, 1999
- Three-time All American Interscholastic Swim Team Member, 1998 – 1999
- NCAA's National Student Athlete Day Award, 1998

Scholarships and Fellowships:

- South Carolina Sea Grant Fellowship, 2008-2009
- Deans Incentive Award, Medical University of S.C., 2008, 2007
- Travel Award to SETAC North America 28th Annual Meeting, 2007
- Science to Achieve Results Fellowship, U.S. EPA, 2005-2008
- Graduate Student Assistantship, Medical University of S.C., 2004
- Georgia Plant Food Scholarship, 2003
- Dudley Mays Scholarship, The University of Georgia, 2003, 2002
- Four-year Academic Scholarship, McDaniel College, 1999

Professional and Honor Societies:

- Member of the Proteomics Research Group, The Association of Biomolecular Resource Facilities (ABRF)
- American Society for Mass Spectrometry (ASMS)
- International Association for Aquatic Animal Medicine (IAAAM)
- Former member of Society of Environmental Toxicology and Chemistry (SETAC)
- Former member of American Society for Microbiology (ASM)
- Former member of Soil and Water Conservation Society
- Former member of National Society of Collegiate Scholars
- Former member of Phi Kappa Phi Honor Society
- Former member of Golden Key Honor Society

Teaching Experience:

2002 – 2003 Soils and Hydrology, The University of Georgia, Teaching Assistant, 3 semesters
Responsible for weekly lecture, grading, and assisting students.

2009 General Microbiology, College of Charleston, Laboratory Instructor, 1 semester
Responsible for weekly lecture, grading, and assisting students.

2010 Biodiversity, Ecology, and Conservation Biology, College of Charleston, Instructor, 1 semester. Developed syllabus, planned lectures, designed tests, and created new and exciting projects for students.

Selected National Presentations:

R. R. Drake, T. W. Powers, A. S. Mehta, D. A. Troyer, B. A. Neely. (2014) MALDI mass spectrometry imaging for on-tissue spatial profiling of tumor specific N-linked glycans and lipids in renal carcinomas. Ninth European International Kidney Cancer Symposium in Dublin, Ireland, April 25 - 26 (Poster Presentation).

B. A. Neely, J. Soper, F. M. D. Gulland, J. M. Arthur, M. G. Janech. (2012) Proteomic analysis of cerebral spinal fluid from California sea lions (*Zalophus californianus*) with domoic acid toxicosis. 43rd Annual IAAAM Meeting and Conference (Oral Presentation).

B. A. Neely, J. Soper, E. G. Favre, F. M. D. Gulland, J. S. Almeida, J. M. Arthur, M. G. Janech. (2011) An assessment of serum peptide profiling by MALDI-TOF as a diagnostic tool for domoic acid toxicosis in California sea lions. 42nd Annual IAAAM Meeting and Conference (Oral Presentation).

B. A. Neely, V. D. Lyles, W. R. Johnson, N. T. Garvin, G. L. Mills, P. M. Bertsch, P. J. Morris. (2009) *Burkholderia vietnamiensis* $PR1_{301}$ Membrane Vesicles: Elucidating the Role of these Versatile Extracellular Structures. 109th General Meeting of the American Society for Microbiology in Philadelphia, Pennsylvania, May 17-21 (Poster Presentation).

B. A. Neely, V. D. Lyles, W. N. Vreeland, P. M. Bertsch, P. J. Morris. (2008) Are Membrane Vesicles Involved in Metal-Microbe Interactions? SETAC North America 29th Annual Meeting, November 18 (Oral Presentation)

Invited speaker to SETAC North America 28th Annual Meeting, 2007. B. A. Neely, J. P. Shields, A. G. Sutter, D. W. Bearden, P. M. Bertsch, P. J. Morris. (2007) Microbial Growth Affects Zinc Oxide Nanoparticle Structure and Toxicity. SETAC North America 28th Annual Meeting, November 13 (Oral Presentation)

B. A. Neely, N. J. Kabengi, E. C. Pollock, D. W. Bearden, P. M. Bertsch, and P. J. Morris. (2006) Development of a model to examine nanoparticle-microbe interactions. 2006 EPA Graduate Fellowship Conference in Washington, DC, September 24-26 (Poster Presentation).

B. A. Neely, J.D. Van Nostrand, J.M. Unrine, P.M. Bertsch, and P.J. Morris. (2006) Investigating the effect of manufactured ZnO nanoparticles on *Burkholderia vietnamiensis* $PR1_{301}$. 106th General Meeting of the American Society for Microbiology in Orlando, Florida, May 21-25 (Poster Presentation)

Selected Inter-Departmental Presentations:

B. A. Neely, J. Soper, E. G. Favre, F. M. D. Gulland, J. S. Almeida, J. M. Arthur, M. G. Janech. (2010) MALDI-TOF peptide profiling as a marker of domoic acid toxicosis in California sea lions. Medical University of South Carolina's Student Research Day (Poster Presentation).

B. A. Neely, V. D. Lyles, P. M. Bertsch, P. J. Morris. (2008) Investigating the Role of Membrane Vesicles in Zn-Microbe Interactions. Marine Biomedicine and Environmental Sciences Center's Student Research Open House, July 18 (Poster Presentation)

B. A. Neely, A. G. Sutter, D. W. Bearden, P. M. Bertsch, P. J. Morris. (2007) Microbial Growth Affects Zinc Oxide Nanoparticle Structure and Toxicity. Medical University of South Carolina's Student Research Day, November 2 (Oral Presentation)

B. A. Neely, V. D. Lyles, W. N. Vreeland, P. M. Bertsch, P. J. Morris. (2007) Membrane vesicles play a role in metal-microbe interactions. Marine Biomedicine and Environmental Sciences Center's Student Research Open House, July 20 (Poster Presentation)

B. A. Neely, N. J. Kabengi, A. G. Sutter, D. W. Bearden, P. M. Bertsch, and P. J. Morris. (2006) Development of a model to examine nanoparticle-microbe interactions. Medical University of South Carolina's Student Research Day, November 3 (Poster Presentation).

B. A. Neely, W. C. Davis, S. J. Christopher, P. D. R. Moeller, E. C. Pollock, D. W. Bearden, N. J. Kabengi, P. M. Bertsch, and P. J. Morris. (2006) Metal-microbe interactions: metallomics, siderophores, and nanoparticles. Hollings Marine Laboratory Brown Bag Seminar Series, August 20 (Oral Presentation).

B. A. Neely, J.D. Van Nostrand, J.M. Unrine, P.M. Bertsch, and P.J. Morris. (2006) Investigating the effect of manufactured ZnO nanoparticles on *Burkholderia vietnamiensis* $PR1_{301}$. Savannah River Ecology Laboratory Graduate Student Research Symposium, June 30 (Poster Presentation).

B. A. Neely, W. C. Davis, D. Point, J. D. Van Nostrand, S. J. Christopher, P. M. Bertsch, and P. J. Morris (2005). Using laser ablation inductively coupled-mass spectrometry to detect nickel-containing proteins. Medical University of South Carolina's Student Research Day November 4 (Poster Presentation).
